

Bukhosi Shuva

Full-Stack Developer | Graduate & Junior Roles

Melbourne, Australia | 0484 964 361 | bukhosishuva@gmail.com | linkedin.com/in/bukhosi-shuva | bukhosishuva.github.io/portfoliowebsite

PROFILE

Full-stack developer with proven experience shipping production web applications using React, Ruby on Rails, Python, and cloud deployment pipelines. Completed a software engineering internship at Seequent a global geoscience technology company and currently building and maintaining internal tools for a multi-site organisation. Strong foundation in agile delivery, REST API design, and UI/UX thinking. Relocated to Melbourne and actively seeking a graduate or junior developer role within a collaborative engineering team.

PROFESSIONAL EXPERIENCE

Software Engineering Intern Seequent

Christchurch, NZ | Aug 2024 – Oct 2024

Seequent is a global technology company building software for geoscience professionals, used across mining, civil, and environmental sectors worldwide.

- Designed and built a new **Stages** feature for the Evo platform portal, translating stakeholder requirements into backend APIs and React frontend workflows.
- Contributed UX and layout improvements to the Evo portal based on usability feedback from developers and internal users.
- Participated in agile ceremonies sprint planning, stand-ups, and retrospectives delivering incremental features on schedule.
- Collaborated directly with senior engineers and stakeholders to align on technical approach and communicate progress throughout the project lifecycle.

Software Developer (Part-Time) Arise Church

Christchurch, NZ | Mar 2025 – Present

Arise Church is a multi-site church organisation with operations across New Zealand. The development team builds and maintains internal tools serving staff and congregation members.

- Built and maintained full-stack web applications using **Ruby on Rails**, JavaScript, and Tailwind CSS, serving internal staff and congregation members across multiple sites.
- Designed and implemented RESTful API endpoints supporting core database operations and integrations within the internal application ecosystem.
- Managed deployments and site changes via **Google Cloud Platform**, with container orchestration using Kubernetes.
- Maintained **CI/CD pipelines** in GitLab to ensure reliable, automated deployments.
- Rewrote and maintained technical documentation, improving knowledge transfer and onboarding within the development team.
- Collaborated cross-functionally with non-technical stakeholders to gather requirements, plan features, and deliver solutions end-to-end.

Sales Assistant Platypus Shoes NZ

Christchurch, NZ | Aug 2020 – Mar 2024

- Delivered personalised customer experiences through active listening and problem-solving in a high-volume retail environment.
- Developed strong communication skills engaging with a diverse customer base and team members.
